

Physical Therapy & Rehabilitation Department

Dear MOS patient,

The physicians at Muir Orthopedic Specialists are owners of the physical therapy and rehabilitation departments at: 2405 Shadelands (Walnut Creek), 5201 Norris Canyon Rd #300 (San Ramon) and 350 John Muir Parkway (Brentwood). The medical group has individually selected and trained the staff in this department. Clinicians who are employed by MOS typically spend a half day a month observing surgery and participate in monthly physician lectures. These are some of the educational and training tools MOS uses to enhance patient care and develop strong communication between patients, physicians, and rehabilitation staff.

However, the MOS physicians realize that this community offers several therapy locations and you are under no obligation to have your rehabilitation take place at our facility. Furthermore, if you feel the distance you have to travel to attend appointments at any of our locations is too great, we would be happy to provide you with a list closer to your home or work.

Sincerely,

Dr. Miranda
President of Muir Orthopedic Specialists

_____ I understand the above statement and would like to receive treatment at this facility.

_____ I understand the above statement and would like to receive treatment at a different facility.
